Ashdod

Re: Letter of Thanks

Dearest Avi,

On behalf of the Union des israeliens originaires de France, d'Afrique du nord et des pays francophones, Section Ashdod, I would like to thank you for your assistance to which you have devoted yourselves since the beginning of the school year.

Thanks to your generous help, we were able to make life easier for several families of new immigrants who were going through a hard time, and were able to help them cope with their absorption difficulties.

Needless to say, the children were happy and joyful when they received their bookbags and school supplies at the end of the summer day camp.

You have proven beyond the shadow of a doubt that there are good people among us who open not only their hearts but their wallets. May you be blessed, and go from strength to strength!

Warm greetings,

Penina Ben-David Azran
Absorption Counselor
